GALA DINNER 

SPONSORSHIP PACKAGE 2018

About the Foundation

The Breast Cancer Foundation was established in September 2009 by Directors Kim Lund, James Bovell, and John Broadbent.

The Foundation is a charitable organization registered with the Cayman Islands Government and was created to provide financial support to several local charities offering aid and services to local Breast Cancer patients. Some of these benefiting charities include the Cayman Islands Cancer Society, and The Lions Club of Tropical Gardens. These organizations work diligently in providing awareness and information, and in offering support in the prevention and treatment of breast cancer.

It is vital that everyone learn the importance of early detection and have access to information and treatment of breast cancer. Our local survivors are proof that we can overcome the battle with Breast Cancer, through the support of the Breast Cancer Foundation, and we can make a difference by giving the gift of hope, support, health and life ... one survivor at a time.

The funds raised by the Foundation are utilized in these ways:

- Financial assistance for Breast Cancer patients direct or via the Cayman Islands Cancer Society and providing, mammograms, prosthetics, special bras, travel & accommodation for surgeries/treatments overseas.
- Sponsorship of the Brenda Tibbetts-Lund Walk/Run organized by the Lions Club of Tropical Gardens.
- Direct Aid to Local Breast Cancer Patients
- Running our own Awareness Program
- Running our WELLNESS PROGRAM – providing a monthly support group, yoga, exercise, dietary advice & assistance, massage, counseling, acupuncture, spa services (during chemotherapy sessions), providing training in lymphatic treatment for on island physiotherapists, running the cold capping service, assisting patients undergoing chemotherapy to keep their hair and much more.

The Breast Cancer Foundation aims for a healthier Cayman...

- Where mammograms are available to anyone in need.
- Where the cost of breast cancer treatment does not put the patient's livelihood in jeopardy!
- Where everyone has an equal opportunity to prevent and treat breast cancer!
